LONG-LOST LADS ARE DISCOVERED LOCKED IN BOX IN BUILDING

BY H. R. K. WILLIS.

SAN BERNARDINO, March 30.—The possibility that little Dicky Jensen and his playmate, Dean Meacham, who were found tonight entombed in a box in a store building at Third and D streets, may not have entered the box of their own volition, but had been locked in by a third party, was hinted tonight on further examination of the receptacle which held the dead body of one and the unconscious form of the other. The door of the box opens with difficulty, and the boys both were small.

Dean had been dead about forty-eight hours, examining physicians said. Dicky was alive when taken from the box, but died later, after prolonged effort on the part of physicians to revive him. With the lips of the little 6-year-old muted by death, there passed the only clue to what really happened from the time the boys disappeared, late Saturday afternoon, until the discovery of them last night.

ALMOST AIRTIGHT

The box which held the boys was about four feet high, five feet in length, two feet wide in the bottom, and only six inches in width at the top. It was of stamped design, and was used for the display of goods. It is constructed of Oregon pine, and the boards are of the tongue and groove kind. It is scored, also, which makes it, except for possible tiny cracks about the door, almost airtight.

The door is at one end, and is about ten by twelve inches in size with a spring catch on the outside and two cross cleats on the inside. It fits so tightly in its frame that Officer Manuel Joseph, who found the boys, had difficulty in opening it. The boys were little, one, weighing but forty-four and forty-one pounds, and doubt is expressed whether either of them could have closed the door sufficiently to operate the spring catch and confine them inside.

A further circumstance hinting at the presence of a third party is the fact that the door and the box is not more than fifteen inches from a disused counter which had been fastened to the wall, making it a rather difficult matter for the boys to have crawled into the box, unless under some great urge.

DEAD FORTY-EIGHT HOURS

The possibility that the boys may have been confined in the box by a third party is strengthened by the fact that Dean had been dead but forty-eight hours, according to physicians. The boys had been missing for six days when found. And, as previously stated, the box is so nearly airtight as to make it improbable that they could have lived for more than a brief time after the door was closed.

DOCTOR'S EFFORTS FUTILE

As soon as news of the discovery could be conveyed to Ramona Hospital, ambulances were dispatched to the building and the Jensen boy was rushed back to the hospital, where Dr. Robert W. Vance and Dr. Ivan L. Finkler, who were on duty, were called.

IN COMPLETE ACCORD

The blackmail theory was referred to by the announcement made today by Neilson G. Mitchell, of Philadelphia, the girl's wealthy father, and John H. Keenan, confidential counsel to Mitchell, tomorrow.

BLACKMAIL THEORY

The detailed examination of the Keenans today and the announcement of Mitchell and Keenan were taken as a possible indication that the District Attorney is testing the theory upon which it has so far proceeded, that the girl was slain by a ring after she had refused to aid the members in blackmailing her "gangster."

The blackmail theory was referred to by the announcement made today by Neilson G. Mitchell, of Philadelphia, the girl's wealthy father, and John H. Keenan, confidential counsel to Mitchell, tomorrow.

WILSON ADMITS HE MADE WALL STREET BOMB, FATAL TO 39

Herb Wilson has "talked!"

The man who has been charged with perpetrating a score of sensational mail robberies, and who has been convicted of the murder of his asserted partner, Herbert Cox, has completely reversed his attitude of defiance to officers of the law, and in a number of conferences with county and Federal officials has detailed to them many of his crimes.

William J. Burns, head of the Department of Justice, is on his way to Los Angeles to investigate the statement that Wilson made the bomb which caused the explosion in Wall street, New York City, Sept. 17, 1922, in which \$1,000,000 in property damage was done, 200 people injured and thirty-nine lives snuffed out. It was stated at his office in New York.

The Department of Justice, recently has come into possession of valuable information regarding the explosion, it was stated by officials there.

BURNS TO COME HERE

When the Los Angeles office of the W. J. Burns Detective Agency was approached early last night it was stated that Mr. Burns himself was expected here any day. In spite of this statement, Mr. Burns, who was found by the Associated Press in Miami, Fla., characterized the confession of Wilson as "junk."

He stated further, however, to the Associated Press correspondent that "a five-minute talk with this fellow Wilson will reveal whether he had any part in the plot."

Mr. Burns further stated, according to the Associated Press correspondent, that he would start at once for Los Angeles and would be here in about ten days.

Wilson has told postal inspectors on Wall street, New York City, the explosive which killed the bomb was manufactured by which son, he says, and sold by him to a man who has been charged with guilty knowledge of the disaster.

GENERAL CROOK ROUND-UP

Through Wilson's revelations Sheriff Trager believes that he can round up a gang of crooks which for years has been robbing banks and mail wagons. An investigation has been conducted by the Sheriff's forces and by postal inspectors for the past several months in an attempt to run down to its source the information that has been supplied them by Wilson.

Wilson has told Federal officials

that he recognized the photograph of Max Wolf, the name given by a man who was arrested in Warsaw, Poland, and charged with being the instigator of the Wall street explosion, as the purchaser of a large quantity of T. N. T. shortly before the financial center of the world was wrecked by 200 pounds of high explosive.

The bomb which caused the explosion was shot down by a German sub-

With a deafening roar that was heard for miles around and which shook houses within a radius of five miles, an electric furnace at the plant of the Vitreous Brick Company at 1600 Pacific avenue, Vernon, exploded shortly before midnight, destroying the plant and injuring two men.

Neither of the two injured men was fatally hurt.

The explosion is reported to have shattered windows in many places in Vernon and the heavy concussion resulted in the falling of the roof of the building in which the furnace was housed was demolished.

Ray, an employee of the plant, suffered a severely injured leg. He was taken to the Vernon Emergency Hospital with J. Van Dorn, another employee, who suffered injuries to his back when he was struck by flying metal.

The addresses of these men could not be learned by the police at a late hour last night. Ray was later removed to the Golden State Hospital and Van Dorn was taken to his home.

TWO DIE AND SIXTEEN ARE HURT IN FIRE

NEW YORK, March 30.—Four buildings a century old, in the center of the city's oldest manufacturing district, were today destroyed by fire. Under the crumbling walls two firemen died and sixteen others were injured. The property loss was estimated at \$150,000.

Discovered shortly after 4 a.m. in a twenty-sixth-story structure occupied by a paper-box factory and a wet-wash laundry, the fire soon spread to adjoining buildings, caught chemicals in a lithographic and printing establishment and was raging in four buildings when the first fire apparatus arrived. At their height, the flames threatened Bellevue Hospital buildings and preparations were made to remove patients.

Families in tenements near the fire were compelled to leave their homes because of the smoke. Infants, left in their cribs by frightened parents, were carried out by firemen.

Julius Spanier and William Aiel were leading a line of hose to the center of the burning structure when the walls began crumbling. One of their comrades was buried in a pile of debris. Aiel tried to pull him out, and he, too, was buried.

Then there came a dull explosion, the entire inside of the building collapsed and Spanier fell. Six of the sixteen who were injured suffered severe fractures.

Members of the board characterized the finances of the district as a "hopeless tangle" and ordered a complete audit of the books and inventory of funds on hand taken. An assistant secretary to have charge of the office was chosen, but his name was not made public, nor was there any intimation as to who would be chosen as Dozier's successor.

The board was completely reorganized. Spencer was elected

RECLAMATION WORK HALTS

Million-Dollar Contract Canceled, Board Reorganized and Most of Employees Ousted

SACRAMENTO, March 30.—A sweeping order stopping all reclamation work in the Sacramento-San Joaquin drainage district, canceling a joint contract let last week for approximately \$1,000,000 and discharging practically all the State reclamation employees including Melville Dozier, Jr., chief engineer and general manager, and Secretary Thomas Mayhew, was issued here today by the State Reclamation Board.

The order is effective tomorrow and was issued following announcement by Gov. Richardson that he had appointed E. S. Wadsworth of Sutter City and William H. Buser of Sycamore, Colusa county, to succeed James M. Cremin of Marysville and A. G. Folger of Sacramento, resigned.

Buster, Wadsworth, Peter Gadd of Sacramento and A. T. Spencer of Camanche, all of whom are Richardson appointees, signed the order. Other members were not present at the meeting, it was stated.

The contract canceled was for the construction of thirteen miles of levee in Sutter county in District 160 and was let last week to W. E. Callahan Company and Smith Brothers, Inc., of Dallas, Texas.

The board was completely reorganized. Spencer was elected

FOSTER TRIAL
NEARING JURYAccused Radical Admits He
Wants ChangeWorkers' Dictatorship His
View for Nation"A.B.C. of Communism" Put
into Court Record

(BY A. P. MONT WIRE)

ST. JOSEPH (Mich.) March 30.

Both sides in the case of William

Foster tried under the Michigan

criminal syndicalism law, rested

their cases late this afternoon and

court was adjourned until next

Tuesday morning, when arguments

to the jury will begin.

The State prosecutors felt satis-

fied as to the outcome when

they obtained the frank admission

from Foster on the witness stand

today that he wished to see the

government of the United States

supplanted by a workers' dicta-

torship in accordance with the Com-

munist philosophy which he is ad-

vocating. The transaction, he

said, would probably result in a

social form of government, similar

to that at present in Russia, al-

though he would not regard this

as necessary or altogether advis-

able.

"A.B.C. INTRODUCED"

At the close of the case Judge

Charles E. White stated that he

would permit in evidence the

book called the "A.B.C. of Com-

munism," which was offered by

the State and which previously

had been rejected. In this book

there are statements of Commun-

ist philosophy which are inter-

preted by the State to advocate

force and violence in overthrowing

the government.

Foster was examined at length

this afternoon from a red-covered

book entitled "Syndicalism," of

which he and S. C. Ford were the

joint authors. This book was pub-

lished twelve years ago in Chic-

ago and was withdrawn from cir-

culation after a few months. Fos-

ter declared that he had since

publicly repudiated it, and in his

speeches and writings he had nev-

er since that time advocated any

of the incendiary methods which

he preached while he was a syn-

dicalist. The book figures exten-

sively in the United States Senate

investigation of the steel strike.

Under examination by Mr.

Walsh the witness testified to ef-

forts he had made to adjust differ-

ences in the packing-house trade,

efforts which led him before Pres-

ident Wilson and ended when the

appointment of Judge Alchuler as

arbitrator in Chicago. In the

steel strike, he said, he had never

advocated violence or any of the

methods described in his old

syndicalist days.

LETTER IDENTIFIED

Foster identified a letter offered

in evidence by the State which

GIRARD

Suburban
Estates
[One to Ten Acres]
Now Ready!In the Town of GIRARD in Rich
San Fernando Valley [2,000 Acres]---in the clean pure air of the open valley land, removed from the conges-
tion and din of the shut-in city---where happy, healthful living and financial
profit go hand in hand.The productiveness of the rich San Fernando Valley soil is a matter of
record. The water rate is the lowest we know of in Southern California.Conditions are ideally suited to avocados and citrus fruits. Ask to see
the records we have on file, showing the unusual profits possible with avo-
cados. If you wish, we will plant your trees, care for your land and bring
your trees into bearing for a reasonable consideration.And here's a mighty important point: there is more automobile traffic
passes Girard than any spot in San Fernando Valley. "Where traffic goes,
there values rise." There have already been three advances in the price of
property at Girard.Following are the names of some of the men who are backing this devel-
opment---the same group of men who developed Walnut Park:

NO REFINANCE RAISIN TRADE

San Joaquin Growers Start
Bond Drive

To Put Business on Solid
Footings

Drop Fivefold Greater Than
Five Years Ago

(SPECIAL INVESTIGATION)
FRESNO, March 30.—Organized
from the lines of the Liberty Loan
drive, with every bank, business
man, Chamber of Commerce, and
commercial organization in the
San Joaquin Valley lined up be-
hind the movement, the Sunn-
maid Raisin Growers, consisting of 14-
150 grape raisers, are out re-
financing their great co-operative
financing association within the
next ten days. Two million five
hundred thousand dollars of 7 per
cent cumulative preferred stock of
the new Delaware manufacturing
corporation, owned by the Sunn-
maid Raisin Growers, is to be sold. At
the same time the growers are
coming in to sign the new con-
tract.

This is the remarkable feature
of the campaign: For the first time
in the history of the co-operative
marketing movement in the United
States the membership is
intending to eliminate a guarantee
of approximately 4 1/2 cents per
pound on the price of their prod-
uct delivered to their own man-
ufacturing company, because the
growers themselves realize that
they themselves must, under the
old plan, guarantee to themselves
an impossible payment.

STORY OF "SUNMAID"
The Sunn-
maid Raisin Growers,
controlling 86 per cent of all the
raisin grapes of the United States
and the packing and marketing of
their products, came into existence
in 1912. Years of individual
operation had put the raisin in-
dustry on the verge of ruin. Prices
generally were below the cost of
production. The great majority of
vineyards were heavily mortgaged.
Credit was exhausted and the
raisin-growing community was
practically bankrupt. Co-operative
marketing organizations had been
attempted, but had collapsed, ex-
hausting the twenty years previous
to 1912, the period of unorgani-
zed efforts, the average price received
by the growers probably averaged
somewhere between 1 1/2 cents to as
low as 4 cents per pound. At the
time the raisin industry was
organized the production was
approximately 18,000 tons. Al-
ready of the 1922 crop, 199,000
tons have been delivered. It is
expected that 1923 crop will ap-
proximate 150,000 tons, and that
two years later, when new vine-
yards come into bearing, the total
production will be something in the
neighborhood of 250,000 tons.

During the war raisin prices
went up. Since the armistice these
prices have been gradually falling
and the 4 cent contract advance
given by the association to the
grower at the time his crop was
shipped has no longer been continued.
At the same time, the heavy in-
crease in production handled has
increased the capital requirements
of the organization, with the re-
sult that the raisin grower of the
San Joaquin Valley is ready and
willing not only to advance two
and one-half million dollars of ad-
ditional money but at the same
time give out his own personal
guarantee of some 4 1/2 cents per
pound and accept in place of it
a guarantee of only that amount of
money which the market condi-
tions year by year make financially
unsustainable.

BUSINESS MAN NOW
And what is more, the campaign
which has just been started gives
every evidence of being finished
quickly and successfully for the
raisin grower of California has be-
come a business man as well as a
farmer.

He has seen his products
marketed from London to South
Africa, from the British settle-
ments to China and Japan. His
billboards adorn not only the high-
ways of the United States but the
main thoroughfares of England. His
salesmen make their calls in Ber-
lin, in Paris, in Tokio and Calcutta,
with the same regularity that calls
are made upon the trade in Fresno,
San Francisco and Los Angeles.
The raisin grower of the San
Joaquin knows a good thing when
he sees it and has no intention of
letting go.

Six meetings a day is the sched-
ule lived up to by Ralph Merritt,
former Food Administrator of the
State of California, now managing
director of the association, and
President Wylie M. Giffen. Their
talks with members in the various
meetings are surprising. They tell
their troubles and the mistakes of
the past with no attempt to pass
over any difficulties. Therein lies
the success which the raisin
growers have had in the past and
the promise of the reorganization
which the present movement offers.

PLAN UNIQUE
The plan of the association for
reorganization is unique. In order
to maintain a co-operative
marketing movement and at the
same time run an international
business on commercial lines, the
California company is to be turned
into an association in which each
member will hold eventually one
share of membership and one
share of stock of the par value of
only \$1 and with a total of only
15,000 shares in existence. This
association, in turn, owns and
controls the non-par common stock
of a Delaware company.

This Delaware company is the
manufacturing company, this com-
pany will own and control the
leading platform, and the warehouse,
the box factories and all of the
paraphernalia which goes to turn-
ing raisins in the field into the
finished product for marketing.

The 1 per cent preferred stock
of the Delaware company, and the
bonds of the Delaware company are
the means for financing not
only the manufacturing end of the
business, which is carried on on
strictly commercial lines, but also
the selling end of the business,
which will be handled by the Cal-
ifornia association itself.

It is one of the most far-sighted
and wise financing plans ever
placed before a grower or an in-
vestor, offering all the benefits of
co-operative marketing and all of
the strength of a commercial or-
ganization. Furthermore, the
plan eliminates the possibility of
any criticism on the part of the
Federal government as the case
comes fully within the terms of the
Warren-Volstead Act.

GREATER GOODYEAR PARK

EMBRACED BY EVERYTHING
NECESSARY TO MAKE
A MIGHTY CITY.

Business Frontage on 4 of City's Most Important Thru Highways Central, Florence, South Park and Nadeau Avenues

Residence Lots Within One Half Block from Yellow Car Line Extension and 5c Fare

Here is Your Chance to Profit From Los Angeles' Industrial Growth

Los Angeles Will Grow and Grow

This is assured by a back country with unparalleled resources; by a combination of cheap hydro-electric power to turn factory wheels, and a climate unrivaled in America; and by a harbor which places the markets of the world at her feet.

No one, studying the figures, can doubt that Los Angeles will grow and grow. This year it is estimated 20,000,000 tons of freight will pass over her wharves (twice last year's total). An average of more than two factories per day have opened their doors for business in Los Angeles so far this year. One-third of the Nation's entire output of oil comes from within 40 miles of this city.

WHY YOU SHOULD BUY IN GREATER GOODYEAR PARK

BECAUSE: It is in the HEART OF THE CITY'S GREATEST GROWTH.

BECAUSE: It is bounded by 4 principal traffic arteries, Central and South Park Aves., to extend southward to the Harbor; Florence and Manchester Aves., two of the seven cross-town east-to-west highways.

BECAUSE: The yellow car line is to be extended down Central Ave. south of Florence to 77th Street within a year.

BECAUSE: The \$1,250,000 John C. Fremont combination grammar and high school will be built just across South Park from the tract.

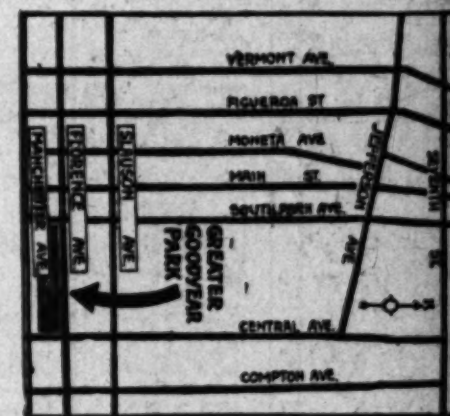

BECAUSE: W. H. Daum's \$100,000,000 South-west Industrial Gateway Terminal, where 14 new factories soon will be erected and operating with large payrolls, is just across Florence Ave.

BECAUSE: Over \$2,850,000 worth of lots have been sold in this district by us since Oct. 1.

Will You Make the Profit?

Some one will. You'll either buy and profit, or fail to buy and regret. Every member back of your investment will be certain growth of Los Angeles toward the Harbor. GREATER GOODYEAR PARK lies squarely in the path of that progress. Lots already are reselling in Goodyear Park (just across Central Ave.) at 25 to 30 percent profits. Even greater resale profits will be taken from GREATER GOODYEAR PARK. It is higher and closer in.

Now you must admit how absolutely necessary a good laundry is to almost every member of the household. The washing and ironing of clothes in a proper scientific manner has now developed into a business of experts—each one playing a special part of such is the foundation of the big success attending the Crown Laundry. Pure soap, and water softer than rain—together with an unbelievable number of fixings to insure absolute cleanliness are the prime factors responsible for the high regard patrons have for The Crown. This is an excellent time to give them a trial.

GREEN OLIVE MINT SAUCE
FOR COLD LAMB
Serves four to five; preparation, ten minutes. One-fourth cup vinegar, one-fourth cup orange juice, one-fourth cup chopped olives, one tablespoon sugar, one-fourth cup of mint leaves chopped fine.
Method—Mix and let stand in a saucepan on low heat for half an hour. Serve cold.

When you put savings made by the Progressive Textile Sewing Co. on your home, you add to its beauty, its comfort and the life of the furniture, rugs and drapes which are injured by the intense rays of the sun in California. This firm's prices are less than elsewhere, as you are buying direct from manufacturers. Estimate will be made if you will phone Pico 5053.

A chaplain is a slice of stale French bread stuck with four cloves of garlic, four whole cloves and slightly moistened with vinegar. This is placed in the bottom of a bowl in which green salads are mixed to flavor the salad.

Let's see, don't you think Betty Bolton Chocolates would make a mighty acceptable gift for any or all of your friends who are in want to remember tomorrow? Betty Bolton's are deliciously fresh always, and being made of pure cream, the best butter and cane sugar why it just can't help being a favorite with everyone.

Many women have gone out of their way to write in and say that their "enlightening" in regard to Frosen Steam has proven most beneficial, for they usually candidly admit that they were not aware of the vast difference between Frosen Steam and common ice. Indeed, they didn't realize that the former was a refrigerator. However, we all live and learn and improve ourselves or our homes by the knowledge gained.

Frosen Steam should be in every housekeeper's ice box before very long. It's vastly more economical than ice, it leaves no disagreeable sediment to be cleaned out grudgingly, but raises the standard of our homes from the moment we begin to use it. The Merchants Ice and Cold Storage Company, being exclusive manufacturers of Frosen Steam—phone to leave a piece today if possible.

If your hands perceive a great deal when sewing, keep a small tin of bran in your workbasket and rub it into your hands when they become damp. Remove dust with a clean towel.

Let's be gratifying to know that a suggestion made, like a small seed when planted, brought quick results. A very intimate friend of mine had for ages done her own sewing by hand, just because she was afraid of the sewing machine. She couldn't afford a machine. Finally though she went into the show room of the White Sewing Machine Company, 317 South Broadway to see if the White Rotary was all it claimed to be and now by convenient terms a sewing machine has almost overnight made her a long.

Waffles and hot cakes, muffins, corn bread—these are the things which test the butter you use, and doesn't take long to tell the difference. You know when all is said and done, there is no substitute for L. A. Creamery butter and being the best, it's cheapest in either. Well-worked and perfect, it's delicious as long as it lasts. You really should try a pound today when giving your order.

The times, which are becoming alarmingly scarce, require careful laundering. You may prolong the life of exquisite nappery by exercising care when washing them. Poor soap containing strong lye, spells quick death for table cloths, serviettes, etc., but White King Washing Machine soap in granules is perfectly ideal for the purpose. It makes a quick lather into which you submerge your linen and rinse it up and down a few times, after which it is removed white as when it was first washed. The way this preparation whitens white clothes without rubbing? Note that, White King Washing Machine soap is very economical to use; lathers in cold or warm water, and is not made of caustic soda, as some people erroneously believe. Its use is extremely general, which fact makes it a home necessity.

To keep clean the cash curtains during these busy days, when windows are open, fasten them back with spring clothes pins. These may be made quite ornamental by enameling and painting just a spray of futuristic flowers in gay colors.

It would have done your heart good to hear the words of praise which were poured forth over some gleaming silver which L. U. Greengard, 1334 1/2 South Spring street, had replated for a customer of note in Los Angeles. Not only was her enthusiasm sincere, but her gratitude over the restored silver perfectly evident. You will be equally delighted with the work this gold and silvermith does. Tablespoons, knives and forks replated for \$1.50 a dozen. Teaspoons, \$1.75.

If you are in a hurry and wish to save yourself dishes, serve the meat on a large platter with the vegetables around it, as a planked steak is served. An attractive and appetizing arrangement can be made.

You never save money by buying cheap cuts of meat. Instead, you lose many pennies in waste by cooking it longer, and much peace of mind in the fretting such inferior purchases cause you. Go to Young's Markets, for in doing so you are assured tender, milk-fed lamb and chicken, and genuine steer beef. No other will Mr. Pete Young permit sold, so it is a joy and a comfort to do your marketing there for Easter Sunday's dinner, as well as for all three meals, day in and day out.

Keep the cords of your electric iron and vacuum cleaner free from kinks, which wear upon the insulation and finally result in breaking.

You may achieve the effect of broad, cool spaces in your rooms by wall paper selected with the advice and assistance of Horace H. Mann, whose years of experience and vast knowledge of the truly artistic and appropriate in every type of home make him capable of assisting you in your choice of paper. In his store at 2411 South Spring street, the best grade paper is sold at its best. Indeed, so large a stock of the finest wall coverings has he that women from far and near seek him out. Prices are particularly moderate, and his work speaks for itself.

Merry-Emma aprons are to have a lovely new home into which they are being today. It will be at 2677 South San Pedro street and the telephone number is South 4189-W. You know that Merry-Emma aprons are not sold from door to door, but if you will phone the above number and make an appointment, an experienced representative will show you samples and take your exact measurements for these garments, which are truly distinctive, different and worthy of the reputation they have acquired.

Add some grated cheese and some chopped mushrooms to the white sauce for fish and note the improvement.

Easter wouldn't be Easter without Torroni. You, of course, have tasted this most delicious candy, which resembles nougat, but is ever so much nicer. You see it is made with pure honey and nuts, and is a confection away above the average. A new shipment of Torroni, Italian almond cookies or macaroons, as we call them, and the French candy has just arrived at the Italian Store Co., formerly known as Vigorelli's, 177 North Spring street. You may phone your order in by calling Pico 130 or 1311, including any of the imported viands which you desire, and not forgetting a can of Caesar's Brand Pure Virgin Olive Oil, the very finest product of the sort one may buy.

Bananas are more digestible if, after peeling, the pulp is scraped and fatty surface removed.

PRIZE SALAD RECIPES GIVEN

Chinese Sweetmeat Takes First Honors

"Times" Contest Department Task Difficult

Flood of Splendid Ideas Submitted

Recipes in The Times Salad and Salad-Dressing Contest were of an exceptionally high order and the appended prize-winners were chosen from the multitude of recipes submitted for their delicacy, tastiness and unusual appearance and qualities.

These recipes will be printed in the book of recipes compiled of the prize-winners of the different contests and credit in each case will be given the author. The book will be sold for a small price and will be very useful to the housewife who is on the lookout for new dishes to tickle the palate of her family.

SWEETMEAT SALAD

First Prize
Parboil one-half pound of prunes until tender. While lukewarm, remove the seeds. Stuff each prune with a small piece of butter, rolled in a ball resembling the Chinese La Chue nut. Seed one-half box of raisins. Fill the centers with chopped nut meats. Dip each date into the white of one egg beaten stiff and flavored with a pinch of salt. Then roll the marinated coated date into shredded coconut. The dates are baked in a hot oven until the coconut browns. This requires but a few minutes. Serve the centers with prunes (which are more colorful when cut in half exposing the red and green of the olive) in a nest of lettuce leaves or by a large leaf. (Katherine Lewis, 413 North Ardmore avenue, Los Angeles.)

Second Prize
Cover one-quarter of a cup of dried mushrooms with one cup of water and let stand one hour. Remove the mushroom, cut in pieces and save the liquor. Place in a sauce pan four tablespoons of olive oil and add one finely-chopped onion and one tablespoon of parsley leaves. Cook until the onion is clear. Add the mushrooms and a tablespoon of Italian dressing. Boil for five minutes. Add a teaspoon of cooked tomatoes, a teaspoon of minced parsley, the mushroom liquor, one cup of hot stock and a seasoning of salt and pepper. Let simmer for thirty minutes.

CANTALOUPE SALAD
Second Prize
Cut cantaloupe in half the long way, take out all the seeds and pulp and cut into small cubes. Sprinkle lightly with salt, then fill with the following: One-half peach, one-half apricot, one-half apple, all peeled and cut into very fine slices. Then take half a dozen white grapes and half a dozen red or black. Cut them in half and seed. Make the dressing as follows: one egg beat lightly, three-quarters cup sugar, juice of one lemon. Work together in double bar fifteen minutes cool and pour over the cantaloupe filled with fruit. Sprinkle chopped English walnuts over top. Chill before serving. (Miss Lillian Kuster, 1017 Elm avenue, Long Beach.)

ROQUEFORT DRESSING
Third Prize
One-quarter pound Roquefort cheese, two tablespoons of olive oil. With a silver fork work the oil into the cheese until it makes a smooth paste, adding more oil if necessary. Whip one-half pint of whipping cream until stiff and then whip the Roquefort paste into the cream. In serving with head lettuce pour a little French dressing over the lettuce and put a tablespoon of the cream Roquefort dressing on each serving. This is also a delicious filling for Roquefort cheese sandwiches. (Mabelle T. Spaulding, Hotel de Luxe, Long Beach.)

ICE CREAM TO BE GIFT ON EASTER
Manufacturers to Supply Children in Homes and Orphanages of City
Ice cream to the point of complete saturation will be the gift of six Southern California manufacturers to the 2000 children in homes and orphanages of Los Angeles Easter week. This is in accordance with the policy of these Family Brick manufacturers to supply ice cream each Christmas and Easter to these institutions.

The manufacturers who will send ice cream are Alpine Pure Ice Cream Company, Creamery Company, L. J. Christensen Company, Hughes Ice Cream Company, National Creamery and Produce Company, and the Imperial Ice Cream Company of Santa Monica.

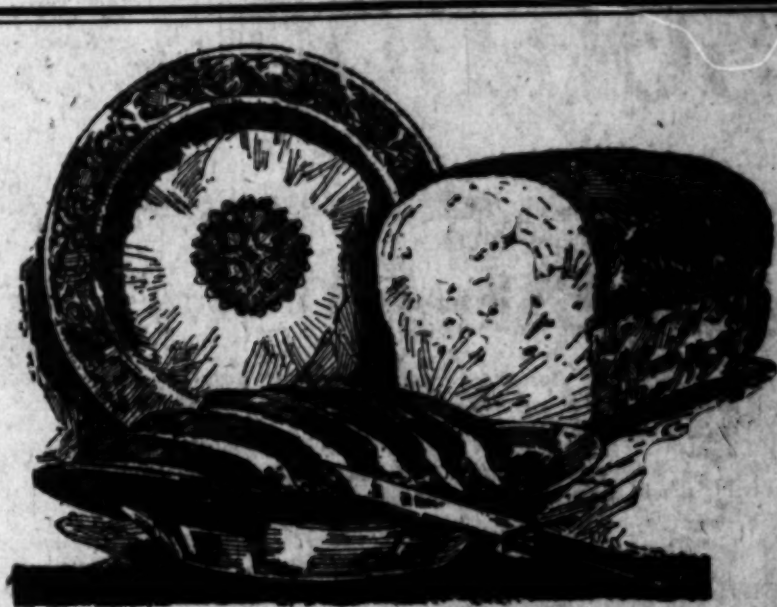

The gift of this wholesome food product and confection is appreciated as evidenced by the delight with which the children hail its appearance, and the many expressions of thanks which have been received from those in charge of the various children's hospitals and homes.

Federal Drive on Back Taxes Opens Monday
Collector Goodell has received instructions to start a warrant of distraint drive covering the entire Southern California district, starting April 2. The drive is aimed at delinquent taxpayers, and warrants will be served on property that they possess.

It is estimated that thousands of dollars of taxes will be collected during the drive. The Collector urges taxpayers who are delinquent to call at his office and make arrangements for payment of the taxes. The drive of distraint warrants is started.

The drive will continue one month, and the distraint field force of the Collector will be utilized, excepting those required to audit income tax returns, and others who may be detailed on special investigations being conducted by the office of the Commissioner of Internal Revenue.

"Charito" The Wilshire Community Kitchen, 323 South Western avenue, 56231, stands ready to help you out with Easter dinner. Why, they will either cook your entire dinner for you, or part of it, just as you desire. Not only that, they have all sorts of home-made salads, cakes and other things to select from, already prepared, also you may have the most wonderful Easter dinner made up by them you ever had. Isn't this an interesting bit of news which you would pay elsewhere?

Good Bread is Health Insurance

MEDICAL authorities tell us that one child out of every three is suffering from malnutrition—a condition brought about by the lack of proper foods.

Unless children eat plentifully of the foods containing the necessary vital elements, they easily succumb to this dangerous condition. Yet, surprising as it might seem to some, good bread—bread such as HOLSUM—contains a greater abundance of all these necessary elements than any other single food.

HOLSUM bread is high in the carbohydrates, the proteins, the iron—in fact all of the properties the body needs for healthy growth. Why, bread supplies 45% of all the energy needed by the body.

Yet, because there are so many opportunities to substitute inferior materials for the best, there are many grades of bread. Because of this great difference, if you choose HOLSUM you choose wisely, for no bread can be higher in food-value. Always ask for it by name. Don't say "bread"—say HOLSUM.

There's a Difference in Bread

Don't Say Bread—Say

HOLSUM

Which?

Dunbar's, the only Pitcher SYRUP

BEAUTIFUL in appearance, convenient, easy to keep clean, this new pitcher-container for Dunbar's Pitcher Syrup is undoubtedly the best syrup container ever offered the housewife.

And it holds a syrup, the finest product of a half century of fine syrup making.

On tables everywhere, delicious Pitcher Syrup is being served from the pitcher.

SAN DIEGO, March 30.—Letters said to point to the innocence of Capt. Louis L. Jacobs of the murder of Fritz Mann have been discovered in Los Angeles by investigators for the defense, according to Paul W. Schenck, chief defense counsel, who left for Los Angeles yesterday.

SOUTHLAND IS NOT ONLY FOR WINTER

Records Show All-Year Climate Appreciated by Eastern Tourists

Many Californians have hypnotized themselves into believing that California is only a winter resort and that its summer color of tourists is more or less negligible.

This impression is erroneous, in the opinion of R. F. Cullen, district passenger agent of the Los Angeles Steamship Company, who predicts that summer travel to and through Southern California will far exceed this year any other summer in the State's history, and that the number of travelers visiting this section during the next few months will outnumber those who visited here during the winter.

His company handles thousands of passengers monthly on its coastwise liners, and hundreds on its Honolulu liners. With this knowledge of travel conditions coupled with the fact that the company has its own personal representatives throughout the Middle West and East who are in touch with all ticket agencies and travel bureaus, Cullen feels that it is closely in touch with the travel pulse of the United States.

"Tourists in the past," explained Cullen, "have been included under the one blanket term, 'tourists.' This is not the case. There are two distinct classes, the leisure and the vacationist classes. The leisure class includes the travelers with money who, seeking to avoid the rigorous winters of the East, come to California to obtain suitable winter climate. The other class includes the working class, members of which are forced to work from ten to eleven months each year. These people lay aside a small amount of money for their annual summer vacations, and it is from among these that California obtains the bulk of its summer tourist trade."

RENT SITE FOR LARGE STRUCTURE

Oriental Firm Leases Bixel and Seventh-Street Corner for Building Purpose

Negotiations involving an eighty-nine-year lease on the southwest corner of Seventh and Bixel streets, and the erection of a twelve-story structure on the property, were made public yesterday by the W. Ross Campbell Company, local realty firm. The site has been leased by the F. Sule One Company at a total rental of approximately \$2,655,000.

The property is owned and was leased by C. W. Cook. It has a frontage of 100 feet on Seventh street and 125 feet on Bixel street. The lease on the property was obtained for the Sule One Company by L. M. Roberts of the realty firm.

ATTORNEY SUCCEURS AFTER LONG ILLNESS

ALBERT PERDUE TO BE BURIED TODAY AT FOREST LAWN CEMETERY

Albert B. Perdue, 43 years of age, of 1117 West Twenty-fifth street, Los Angeles attorney, passed away yesterday morning after a prolonged illness.

Mr. Perdue first came to Los Angeles thirteen years ago from Birmingham, Ala. He was a member of the Masonic Lodge and a teacher of the Hebrew Bible class of the Temple Baptist Church.

Mr. Perdue leaves a widow, Mrs. Lola B. Perdue, and six children, George E. Perdue, W. M. Perdue, Albert B. Perdue, Jr., Miss Lola B. Perdue, Mrs. P. Tyler and Mrs. E. F. Dewar.

Funeral services will be conducted today at 1 o'clock from the little Church of the Flowers at Forest Lawn Cemetery. Rev. J. W. Brougher will officiate.

VOLUNTEERS TO FIGHT FIRE

Capacity of Forest Situation Appeals to Public and Supervisor Charlton is Promised Help

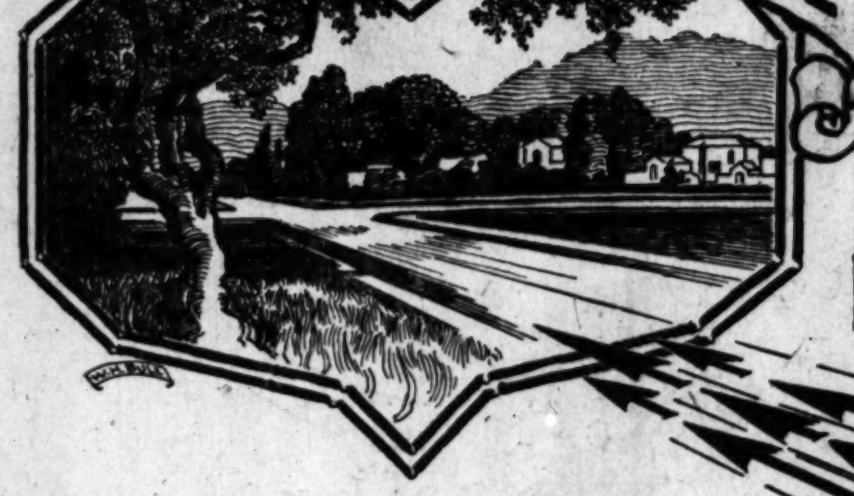

The call of Supervisor Charlton of the Angeles Forest Reserve, for immediate assistance to fight the fire menace, has borne fruit. Yesterday he was in receipt of numerous telephone assurances from volunteers that they would aid in whatever was necessary to be done along the line of increasing the ranger service.

With the coming of the warm weather thousands of hikers and campers are going into the mountain country for the summer and this adds an element of danger. This feature, added to the menace from other sources increases the probability of disastrous fire. If a blaze should break out now, there is no way of estimating the damage that might ensue, foresters say.

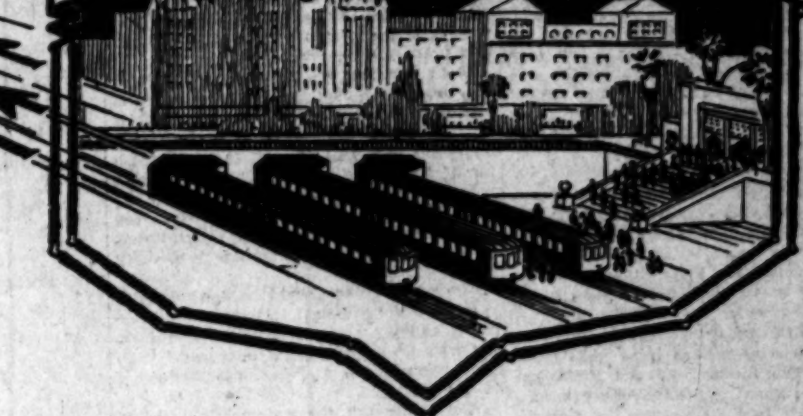

But the cry of Supervisor Charlton has been heard. There is recognition of the patent fact that financial help is needed, and it will be accorded immediately according to the latest advice. Important additions to the government force of thirty men now on duty in the local reserve will be effected as soon as arrangements can be made.

Beautiful Bellehurst Park

IN THE HEART OF GLENDALE

PERSHING SQUARE
IN THE HEART OF LOS ANGELES

In the Heart of Los Angeles

is today the most splendid and monumental group of buildings dedicated to the high purpose of commerce and industry on the Pacific shores of the Americas.

In the Heart of Glendale

Bellehurst Park by virtue of its irresistible natural attractiveness chosen by destiny to be the ideal residence park of this great center.

Now the New Los Angeles-Glendale Subway certain to be built, because the growth of Los Angeles will compel it, will bind two centers, each great in its own way, in even closer bond.

The best brains of Southern California recognize these great outstanding facts.

Tens of millions of dollars are being poured into the heart of Los Angeles for new buildings by wise and far-sighted investors.

Millions are being poured into the heart of Glendale by investors just as wise and as far-sighted, who recognize the great part this location has played, and must play, in the development of the Southwest.

Within a few blocks of Bellehurst Park, the Security Trust & Savings Bank is spending \$600,000 in their building, recognizing the tremendous growth in population and wealth that is coming to Glendale.

Over \$600,000 in sales have been made in Bellehurst Park within two weeks and one day of our first announcement in the Los Angeles papers.

This electrified success is simply due to wide recognition on the part of the public of a golden opportunity.

But is it any wonder?—for there is certainly not another piece of property under the blue California skies today that beckons to buyers with such a wand of gold.

Just figure its LOCATION—in the very heart of the wonder city of Glendale—growing like wildfire—spreading out in all directions, built up absolutely solid to the property NOW.

Just figure its CHARACTER—a 200-acre old estate with glorious trees, level and fertile.

Just figure the IMPROVEMENTS—the finest that money can buy—miles of paved avenues, with cement curbs and sidewalks—city water, gas and electricity on every lot guaranteed without further cost to purchaser.

Just figure the RESTRICTIONS—safe and sane—the fruit of 20 years' experience—prohibiting apartments, temporary buildings, duplexes, etc., allowing only artistic single family dwellings.

Just figure the TRANSPORTATION—only two blocks from Brand Boulevard, the main street in this city of 40,000. Just two blocks from the Pacific Electric car to your home.

We believe it is a tragic error for any one who wants a money-making investment or an ideal homesite, to let another day go by without seeing Bellehurst Park before it is everlastingly too late.

BABIES HOLD CONVENTION

Infant Howls and Infant Smiles of Infinite Variety Feature Cradle Roll at Church

BY ALMA WHITTAKER

They said that there were a mere 2000, but for my part I believe there were a million babies at that cradle-roll party at the Church of the Open Door yesterday.

They simply swarmed everywhere—and all under four years of age. Scores of them lay blissfully sleeping in cradles, three and four to a crib. Scores of them had the slightest intention of sleeping, blissfully or otherwise, and were leading their harassed mothers the dickens of a time of it.

And there was Mama Grant, trying to persuade Charlotte and Colin, twins, that having one's picture taken was a pleasure. And there was Johnny Meyers, whom the little official and mama Bobby Agard, who was all wet, and Florence York, who fell down the steps.

And when it came time to have the group picture taken, the babies showed the slightest possible interest and protested volubly when mama showed signs of stepping away after she had arranged the nicest pose.

Yes, it was a wonderful party. And they were dear wonderful babies. And it was a great triumph for the Church of the Open Door. But I will wager that both mama and the little official sighed with content at the end of the perfect day and the fact that it comes only once a year.

I observed that numerous men peeped in to view the babies. But they were not to be seen. Only a very enthusiastic mama, steeped in maternal dutifulness, can adequately cope with a day like that.

And one could not help observing that the fashionably-groomed, well-poised mammas owned the happiest and least emotional eight stumps, while the harassed, not-to-well-groomed mammas owned the most riotous variety. Just which was cause and effect one could not be sure.

Well, the facts of this interesting wonderful occasion are that some 2000 parents have enrolled their babies under 4 years of age in the Cradle Roll of the Church of the Open Door. The reason was an "Easter" party to celebrate the new candidates filing in the Cradle Roll.

It is a fact that every kiddie received an Easter chicken. As a baby which doesn't eat the parent chickens had magnificent tail feathers, so it must be a baby which doesn't eat the parent chickens had magnificent tail feathers. It is like a fact that it was a triumph occasion and a glittering success as such events go.

WOULDN'T BELIEVE And the truth? Well, the truth is that most of the mammas were here to hand that all the babies were behaving just as they usually do in company, pleasant, dear irresponsible, unfettered, unbridled, babyish young ones. For instance, there was little 11-month-old Wendoline, Andrew of Newport, the temporary mama, Master Owen and Irwin, the months-old healthy robust twins. Owen lay sleeping in the crib, while Irwin reposed Wendoline's young arms, very on awake. Finally, however, Irwin awoke, and he was a little bit of a trouble maker. He was a little bit of a trouble maker. He was a little bit of a trouble maker.

And Owen woke up and spoke his mind. Twine, remarked Wendoline, philosophically, hardly ever at the same time. Then there was Mama Jack, with a pair of twins, Sam and Cedric, and Gladys, ten months old, and a Truman—all tricked out in a caper and red hats. Add all her 3 years of age. Was Mama Jackson having a calm and useful day at the party? While she was having a calm and useful day at the party? While she was having a calm and useful day at the party?

Then there was the responsible man who had found a lost and was doing his noblest to find it, and tell everything was all right. And there was Helen Henderson, a

LAST DAY TO REGISTER!

Registered yet? Today offers the last opportunity to voters to get their names on the registration books.

Contrary to current opinion, voters who wrote their names in the poll books last summer for the primary election, or voted in the autumn election, do not have to register for the Tenth Congress District election, set for May 1, or for the June city election. David B. Lyons, registrar of voters, explained yesterday.

Registrations are up 19 the average, he declared, in both the city of Los Angeles and in the Tenth Congress District. "A total of 247,411 voters was registered in the Tenth District for the general election last fall," he said after thumbing a small book filled with statistical matter. "The registration for the forthcoming primaries and elections will not be known until late next week, but I estimate that 258,000 will have registered before midnight Saturday for the special Congressional election."

"Failure of many citizens to register, after having moved from one precinct to another, threatens to disbar large numbers of voters unfamiliar with the election laws. Our registrations are chiefly among this class, while at the same time we are discouraging persons who registered last summer or in the autumn for the fall election from registering again."

A total of 251,947 persons was registered in the city for the 1932 general election.

GIRL HELD IN CHECK CASE

Father of Long Beach Beauty Insists His Daughter Should be Examined for Insanity

In spite of the fact that Mary Beth Crowder, attractive 22-year-old Long Beach girl, wife and sister at the court, prosecutor, clerk and a deputy sheriff, she was held to answer yesterday by Justice Scott.

The girl's hearing was progressing on a charge of forgery of a check for \$15 while she winked and smiled, now at Justice Scott, now at Dep. Dist. Atty. Burton, now at Clerk A. W. Moore and then turned her attentions to Deputy Sheriff Stensland. During the course of the hearing J. H. Crowder, a geologist and father of the girl, testified that he believed the defendant was not in her right mind and that he would seek an insanity complaint for her, probably today.

The father also said that two weeks ago the girl left her home after she had been told that she would have to live up to the rules of her house. At one time she had been reported kidnapped at Long Beach, but this was said to have been when she had left her home.

Mrs. Gordon ("Beth") Mitchell of 1145 Orange Drive, a motion picture actress, testified that she met Miss Crowder in the lobby of the Alexandria Hotel and later the girl called her home. Mrs. Mitchell said she gave Miss Crowder a check to hand to her mother, according to testimony of clerks in a downtown department store. Miss Crowder presented the check to the board of directors. It was stated, bought a picture and received the change in cash. The check was said to be a forgery.

The court held Miss Crowder to answer, filing her at \$500. She was released into the custody of her father until today, when he is to provide bail.

Positions Wait for Workers on Y.M.C.A. Lists

The employment department of the Los Angeles Y.M.C.A. yesterday announced that for the first time in the history of the organization more jobs are available at this time of year than there are men to fill them.

W. H. Salzer, head of the department, declared that at present 150 positions, paying from \$15 to \$30 a week, are listed with the department, which cannot find men to take them. Mr. Salzer said that during March the Y.M.C.A. found jobs for 415 men—a record. The last previous month—November of last year—provided 333 jobs.

During March, Mr. Salzer said that the four men working in his department interviewed 5084 men seeking work. He said that during the past few days, about 416 more jobs would have been available, if the right men had appeared to fill them.

The biggest demand at present, he said, is for clerical help, male stenographers being at a premium. These positions pay from \$10 to \$14 a month, he said.

SEEK "CHLOROFORM THIEF"

Armed Posse of 300 on Guard for "Society Burglar" Who Robs Home Each Night

(EXCLUSIVE DISPATCH) SANTA BARBARA, March 30.—That chloroform or other means of putting his victims to sleep is being used by a "society burglar," who is ransacking homes of wealthy residents of this section, is the belief of officers, who at 2 o'clock this morning were called to the A. G. Orsena home, where the burglar had been. The rooms were found to be filled with what is thought to have been chloroform odor. The thief obtained \$2500 worth of jewelry.

Though within ten minutes after the call was received at the Sheriff's office from the Orsena home, 300 men were searching the hills, no trace of the thief could be found.

Tonight 300 armed men are on watch throughout All Hues, 30 miles Canyon, Riviera and Montecito districts. Every road within a radius of six miles is under guard. Officers are confident by tomorrow morning, if the burglar feels his activities tonight were not a success, he will be either a subject for Coroner E. G. Dodge or behind the bars.

It is estimated he has so far obtained more than \$40,000 worth of loot. He has burglarized a house on each of six nights, going only to the homes of the wealthy.

CITIES ARE SUBJECT OF HOT DEBATE

Advantages of Los Angeles Over Buffalo to Be Upheld by School Team

"Resolved: That Buffalo's advantages for development exceed those of Los Angeles." That will be the subject of what promises to be a fiery debate between debating societies next Thursday night, April 5, at the auditorium of the Polytechnic Union High School. The visiting team is composed of members of the high school department of Canisius College, Buffalo, N. Y., while the superior advantages of Los Angeles over the eastern city will be argued by the debating society of Loyola College.

The Dental Clinic was opened to the public at 523 South Figueroa street, on the 9th inst.

When a friend of Mrs. Jeanette H. Chase, a chorus girl, tried to protect her during the progress of a domestic squabble, Earl M. Chase, her husband, locked the friend in the bathroom and then resumed his assault on her, the wife declared yesterday before Judge Summerfield, who sitting in Superior Court, granted her a divorce decree.

Mrs. Chase said they were married Aug. 13, 1931, and separated the following February. In April, 1932, Mrs. Chase asserted, her husband met her on the street and began to abuse her. A crowd gathered, she said, and as she took refuge in a friend's automobile Chase struck at her. Pauline Williams, her chum, corroborated Mrs. Chase's testimony.

MOTHER SEEKING SON

MISS HIM BY HOURS

After traveling from Anderson City, S. C., in search of her missing son, Mrs. L. B. Black reached Los Angeles Harbor late Wednesday, two hours after her boy, Cecil Black, checked out of a port hotel. Broken-hearted and penniless after exhausting all her funds in the long search, Mrs. Black is today under the care of the American Legion Auxiliary at Los Angeles Harbor, which organization is conducting a State-wide search for her son.

Mrs. Black, a widow, gave both her sons to her country during the World War, the oldest enlisting in the Army, and Cecil, the junior, joining the Navy. The elder son returned from France with his lungs seared by gas and was discharged as a disabled veteran. He died in the little South Carolina town three weeks ago.

Cecil Black was discharged from the Navy here last December and wrote his mother that he had accepted a position with a local oil concern. After her elder son's death Mrs. Black came to Los Angeles Harbor to find that her son had disappeared on the day of her arrival.

A search of port marine employment offices has revealed no trace of the missing man, although the police believe that he departed from the harbor on a steamer. Cecil Black is described as being 21 years of age, of slight build, fair hair and blue eyes. Anyone learning of his whereabouts is asked to notify the Los Angeles Harbor police.

Monday night's mass meeting will be featured by the collecting of a campaign fund to finance the fight for the Governor. If these positions pay from \$10 to \$14 a month, he said.

SANTA FE TO SUBMIT ARGUMENT

Railroad Asks to Send Statement on Franchise to Voters of City

The Santa Fe Railroad Company yesterday asked permission of the City Council to submit to the voters a 2000-word statement setting forth reasons why the railroad should be permitted to extend its transcontinental line from El Segundo to Los Angeles Harbor to serve the industries and steamship lines there and aid in the development of the port.

Under the city charter, permission is given to the proponents and opponents of any referendum measure on the ballot to submit arguments and these are mailed to each voter with the sample ballots which will be sent out by City Clerk Dominguez before the May 1 primaries.

On the ballot at this election will appear the proposition as to whether the permission given by the City Council to the Santa Fe to extend its line to Los Angeles Harbor shall be permitted to stand, and it is on the affirmative side of this proposition that the Santa Fe will argue, pointing out reasons why the voters should be in favor of sustaining the Council's action in approving of the Santa Fe Harbor extension franchise.

The case was returned to the police court for future action and the defendant remanded to the custody of the Chief of Police.

Jail Term Under Wright Measure Is Ruled Illegal

W. Hetman was illegally sentenced in Police Court to 15 days in the City Jail for violation of the Wright Act. It was decided yesterday by Judge Shank.

The ruling came during a hearing on a petition for a writ of habeas corpus, which was granted by the court. It was held by the court that Hetman was convicted of having been in his possession of a pistol, which was granted by the court. The penalty for a first offense of this nature can only be a fine of not over \$100.

The case was returned to the police court for future action and the defendant remanded to the custody of the Chief of Police.

CONSTANCE WILSON GETS LEADING ROLE

HERS TO PLAY OPPOSITE MIERS IN WAGNER'S "FAIR WEEK"

Constance Wilson, Lois Wilson's sister, who has been bubbling around on the Los Angeles scene, is stepping to stardom, was cast yesterday for her first important part in a picture. She is to be Walter Hiers' leading woman in "Fair Week," which is to be Rob Wagner's first experience at directing. Mr. Wagner, who has sold a great deal of his fiction to Paramount for production on the screen recently, has signed a five-year contract with Looney.

FRIENDS FLOCK
TO FREDERICKSDemand for His Election Is
Made EmphaticSteps Are Taken to Organize
Great CommitteeWithdrawal From Race of
Others Expected

The enthusiasm with which Capt. John D. Fredericks' candidacy for Congress in the Tenth Congressional District is being received by the public manifested itself yesterday when friends of Capt. Fredericks set about organizing a general campaign committee.

Admirers of the candidate declared after a brief canvass that a committee of 100 persons, composed of most representative citizens of the Tenth District, will be formed. Following a two-year conference during the afternoon, friends of Capt. Fredericks, active in his behalf, declared the movement put in motion to give Los Angeles county an outstanding figure in Congress may be expected to lead to the withdrawal of one and perhaps two of the other candidates now in the race.

Work of selecting the executive committee which will direct Capt. Fredericks' campaign progressed satisfactorily during the day. Dr. Robinson, Capt. Fredericks' campaign manager, said. This committee, now nearing completion, includes the names of many of the best-known Republicans in the Tenth District.

The action of the Tenth District Congressional committee, coupled with the action of the Los Angeles county Republican central committee, in declaring Capt. Fredericks to be the choice of the Tenth District Republicans for Congress at the special election called for May 1 to choose a successor to the late Congressman Osborne, has heightened interest in his candidacy and is attracting to him the support of Republicans who heretofore have not concerned themselves with the matter.

Campaign headquarters were definitely decided on late yesterday. They will be on the ground floor of the Pacific Mutual Building at 518 West Sixth street. Workmen have been busy plastering and decorating them and they will be in readiness for opening Monday.

The task of completing the general campaign committee will be carried forward from the new headquarters, as will the speaking campaign, to be inaugurated and supervised by a special committee of Capt. Fredericks' friends.

WRIGHT ACT HITS
AT VICTIM TWICE

James Nash, in whose home at Venice Eileen Zimmerly, pretty dancer, met her death recently, was a doubled-barrel victim of the Wright act yesterday. Justice Baird fined him \$300 for illegal possession of liquor and held him in \$1000 bail for the Superior Court on a charge of manufacture.

EASTER SERVICE
PLANS PERFECTEDANGELES MESA HILLS TO BE
SCENE OF IMPRESSIVE
CEREMONIES

Easter sunrise services are to be held Sunday morning on the hills of Angeles Mesa at the extreme end of West Fifty-fourth street. The churches of the southwest are to unite in the ceremony. Just as the sun rises over the eastern hills at 5:40 a. m. a bugle call will arrest the attention of the thousands wearing expected and prayer will be offered by the Rev. Mr. Donald, pastor of the Pilgrim Congregational Church.

Rev. Thomas Lutzman, pastor of the Mesa Congregational Church, will deliver the Easter address. He will be assisted by Rev. Mr. Dunning, pastor of the Chasterville Square Methodist Church; the Rev. Mr. Donald, pastor of the Pilgrim Congregational Church; Rev. Mr. Dunham, pastor of the Immanuel Baptist Church, with the choirs of these churches rendering the Easter anthems.

PURCHASE OF BLOCK
FOR SCHOOL OPPOSED

Opposition to the condemnation proceedings instituted by the Board of Education to obtain the valuable block of land bounded by Seventh, Eighth, Gaffey and California streets at Los Angeles Harbor for school purposes was announced yesterday by the Triangle Construction Company, owners of the property in question.

The land was purchased several weeks ago for \$70,000, according to Arthur W. Waldon, an official of the concern, with the intention to subdivide the block and erect a number of high-class dwellings. Immediately after the purchase the Board of Education made an offer of \$40,000 for the site, said Mr. Waldon.

Mr. Waldon and his associates placed the minimum figure at \$40,000 and after failing to complete negotiations the Board of Education instituted condemnation proceedings, declining to raise its offer of \$40,000. The site is considered one of the most favorable for school purposes at Los Angeles Harbor.

POLICEMAN BREAKS LEG

Thomas Conner, 34 years of age, of 231 North Bonnie Brae street, a mounted traffic officer, suffered a broken leg yesterday when his horse shied at the intersection of Fourth and Hill streets, slipped and fell before the animal rolled. The victim more serious injury. Three months later the officer was injured on Broadway while stopping a runaway horse.

HUSBAND SOBS OUT WOES

Defendant in Divorce Action Breaks as He Shouts,
"Let Me Tell My Story"

The divorce suit of Genevieve Bridgman against Ray Bridgman was taken under advisement by Judge Summerfield yesterday after the husband, who had failed to contest the case, arose from his seat in the rear of the courtroom and sobbed out the story of his marital woes.

ANOTHER IS
ARRESTED IN
LIQUOR CASEBlanket Indictment May
Be Sought in Asserted
Conspiracy

The seventh arrest in connection with the asserted conspiracy case in which the names of Jack Pickford and other cinema folk were mentioned, was made yesterday by local prohibition agents.

The prisoner is A. C. Daugherty, 1313 North Vine street, and his bond was fixed at \$5000 by United States Commissioner Long.

Daugherty said he expected to be able to furnish the necessary security. The Pickford liquor investigation was not before the Federal grand jury yesterday. United States Attorney Burke and Prohibition Agent Delley are gathering together the threads of evidence in the circumstances warrant an omnibus indictment may follow. But it all depends on circumstances. The preliminary examination of Daugherty was set for April 1, the same day fixed for the other half-dozen defendants.

CHARGE FILM HEAD
FALSIFIED RECORDS

H. Y. Romyne, head of the Romyne Superfilm Company, was arraigned yesterday in Justice Pollette's court on a charge of falsifying company records of the Cinema Distributing Company, of which he is a director. Mr. Romyne was released on his own recognizance, as he had previously given bail on an embezzlement charge lodged against him. His hearing will be April 14.

The complaint against Mr. Romyne, issued by Dep. Dist. Atty. McClelland, charges that, following a meeting of the directors of the Cinema Distributing Company, he instructed a stenographer to insert in the minutes of the meeting a paragraph indicating the passage of a resolution approving the purchase of a film, which the Romyne Superfilm Company was to furnish, for the sum of \$100,000.

HOLLYWOOD BLVD. NEAR HIGHLANDHarding's Chances
for Another Term

One blast from the bugle of Harry Daugherty sets the wild echoes flying in every corner of the land. The Attorney-General's confident declaration that President Harding will be re-nominated without opposition, and will be "again overwhelmingly elected," is a signal that the political shooting for the next Presidential campaign is now in order. Why the Harding hat should be "shied" into the ring so early puzzles some observers, who wonder if certain rivals are getting this notice to keep out. Some sort of contest seems indicated, we are assured, and with the President making twenty speeches in defense of his policies, and constructing planks for a reelection platform; with Senator W. E. Borah outlining his own policies, both foreign and domestic, in a series of well-advertised speeches; and with Hiram Johnson coming back from Europe "preparing to fight in a spectacular way," as a paper in his State puts it, it is clear enough to the Baltimore Sun, "that we shall not have a dull political summer. An exciting, if not enjoyable, time will be had by all."

Read THE LITERARY DIGEST this week for all of the interesting comments regarding President Harding's chances of reelection.

"I saw a good one in FUN from the PRESS

at the Grand Theater this week," said a toastmaster recently. "A little chap climbed on his father's knee and said, 'Daddy, can you still do tricks?' Somewhat surprised, the sire asked, 'Why, what do you mean, son, 'do tricks'?' And in all innocence the little lad responded, 'Well, mama says that when you were young you used to drink like a fish.' The audience roared an approval of laughter and the usual early chill of such an occasion was dispelled.

"FUN from the PRESS" is a perennial supply of stories for orators, salesmen, and everybody who just likes to scatter sunshine with a clever jest or a witty wheeze. It embodies the best in current humor that The Literary Digest gleans from the printed pages of both hemispheres. And a hilarious new reel is released every week. At all leading theaters. FUN from the PRESS is produced by The Literary Digest. Distributed by W. W. Hodkinson Corporation.

COURT GIVEN NOVEL CASE

Bakersfield Man Is Held on Testimony Charge

Contract Is Asserted to Have Been Changed

Believed First of Kind in Superior Court

(EXCLUSIVE DISPATCH)
BAKERSFIELD, March 30.—Charged with preparing and offering false testimony, the preliminary examination of P. W. Williams was held here late yesterday and today before Justice of the Peace E. O. Jones. It is said to be the first test of sections 132 and 134 of the Penal Code.

Williams is accused to have inserted two lines into a contract signed by L. E. Pryor, an asserted alteration which is said to have materially changed the character of the document. He was bound over to the Superior Court and released on \$1000 bail furnished by a surety company.

The complaint was made on two counts, the first fraudulently altering a public document, and the other preparing fraudulent evidence to be introduced into court.

PROSECUTOR WITNESS
 A witness for the State yesterday afternoon was E. O. Heinrich, instructor of criminal jurisprudence in the University of California. His testimony was based on his scientific findings in connection with the document in question, which was sent him for examination through the District Attorney.

Other witnesses were the com-

PROTECT YOUR CHILD'S HEALTH

Time's Offers Booklet of Invaluable Aid to Parents

BLUECOATS CLIMB UP TO CELLAR

House Without Windows or Doors Conceals Stores of "Wet Goods"

They built themselves a house sans windows, sans doors, and they entered it via a ladder to the second floor. But they forgot to draw up the ladder and men of the portuculla and three minions of the law scuttled up the rungs last night and are said to have discovered Henry N. Smith and Thuan Click in close proximity to a "wet" factory in operation.

All this according to the report of Capt. W. L. Spellman of the Santa Fe police, who led Detectives Groff and Slaughter in a raid on the house, which stands about a half-mile from North Armas Road, near Palma.

Suspicion was drawn to the place shortly after construction of the house began when it was noted that, either by oversight or design, doors and windows on the first floor had been omitted. When a ladder to the second floor compartment for the lack and men were seen passing up and down this ladder, the raid was ordered.

Capt. Spellman and they found a seventy-five gallon still, a quantity of the finished liquor and other supplies, and the two men, who are held for violation of the liquor laws.

Read This to Discover How Cash is Spent

Some people think that when a cast is hired, a director and his staff engaged and the sets built, there is no further expense in the shooting of a big picture.

Although Universal City is completely equipped, \$50,000 worth of new electrical equipment had to be purchased and additional equipment, valued at \$200,000, leased by the month in order to provide enough lighting to shoot "The Hunchback of Notre Dame," Lon Chaney's spectacular starring vehicle, in the way it should be photographed.

That is an item of expense that very few people, even many professional, would ever think about. It is just one of a score of unthought-of expenses connected with the making of what is prophesied to be the world's greatest moving-picture.

Capt. Hancock Returns From Yacht Voyage

Capt. G. Allen Hancock, wealthy Los Angeles yachtsman, has dropped anchor in home waters again after a three months' cruise with friends which took him south down the coast of Mexico, through the Panama Canal into the Atlantic.

Leaving Wilmington January 9 on his palatial yacht the Valero II, Capt. Hancock set his course down the coast of Mexico, making stops at various points of interest, and voyaging by easy stages and finding time to fish and visit localities on the west coast of Mexico; seldom frequented by whites.

SERVICES ARRANGED FOR WEBER FUNERAL

By a "Times" Staff Correspondent
PASADENA, March 30.—Funeral services for George A. Weber, wealthy Pasadena clubman, inventor of the famous Weber ball joint, and formerly prominent in the railroad supply business, will take place at the residence, 1849 San Rafael street, at 10:30 a.m. tomorrow. The services will be private.

Interment will be in Mountain View Cemetery.

Mr. Weber, who died Thursday, at the age of 74 years, leaves a widow and four children, W. Hoyt and Mrs. Nathan C. Sweet of Pasadena, W. Howe W. Howe and Mrs. C. H. Luther of Stamford, Ct.

The Weber family home is in Stamford, but Mr. Weber had spent much of his time here for a number of years. He was president of the Midway Country Club and founder of the Pacific Coast senior golf tournament.

SAMUEL G. McMEEN TALKS TO STUDENTS

(EXCLUSIVE DISPATCH)
PASADENA, March 30.—Samuel G. McMeen, one of the foremost electrical engineers in the country, gave his first lecture today at the California Institute of Technology, where he recently became a member of the faculty. He fills the chair of communicating engineering, and will give two lectures a week. He is well known in Pasadena, being a member of the City Planning Commission. He was graduated from Purdue University in 1914. Since then he has been employed with the Central Telephone and the Western Electric companies.

In addition to being editor of the Archery Magazine, Mr. McMeen has written several books on scientific subjects, including "Telephony," written in collaboration with Kemper B. Miller, and "American Handbook of Engineers." He lives at 683 South Los Robles avenue.

ST. LOUIS MASONS FORM LODGE HERE

Approximately 100 members of the Masonic order, all of them former residents of St. Louis, held a meeting last night for the purpose of forming a local lodge. A committee was appointed to make arrangements for permanent clubhouse. The following temporary officers were elected: Studnicka, president; H. E. A. Spilker, secretary; C. R. Stegmann; treasurer. Officers will meet weekly. Masons now residing in Los Angeles are invited to communicate with the officers for permanent clubhouse. Warren D. Isenberg, Suite 218, Stradbury Building.

By "Quality Plus" we mean clothes that not only have all-wool quality, superb tailoring, but an appealing price as well. That you'll be satisfied with the selections here is a foregone conclusion, judging from the comments we have had from all sides concerning these. Character clothes that fill every requirement of the exacting dresser. Fill them definitely and well. Sports, Norfolk and more conservative models are here in a splendid choice of the Spring's finest fabrics. Sizes for men and young men of all builds.

All-Wool Topcoats
 Spring Weight
 Light weight woolens woven in some of the smartest shadow plaids we have seen in many a season. Also plenty of conservative grays, herringbones and tweeds. Other topcoats are 30.00 and 40.00.

Men's Knit Ties, 95c
 All the dash and spirit of color that characterizes the new ties of spring, as well as conservative tones, are represented in this unusual value event at 95c. They're going fast, men. Better get yours today!

MEN'S GOOD LOW SHOES, AGAIN, 5.00
 Good in style and good in quality. Stylish, dark brown calfskin on English lace or medium broad toe last. Others at 6.50 and 7.00 are popular French toe styles with neatly perforated tips, heel trimmings, leather sole and broad heels. Also at 7.00 are smart two-tone sports models with comfortable plain toe lasts and easy walking soles and heels. Sizes 6 to 11. (Hamburger's Store for Men—Main Floor—Saturday)

'VAMP' PLAYS WITH KIDDIES

Barbara La Marr Romps With Orphans and Her Adopted Son at Parentless Tots' Home

BY GRACE KINGSLEY
 To have seen her playing Hi Oh for Chorro, and London Bridge is Falling Down, Friday, you never would have guessed she was the rascally, one little girl asked, "Oh, is Miss La Marr's little girl a boy?"

The party was only one of a series which Miss La Marr means to give these orphans. When she found out that about a fifth of the youngsters because they have no parents or friends are left at home on those Sundays when friends call and take the others out, she at once announced that she is going to come along with three cars, on those days, and take the hapless ones of a lone ride to the beach.

But Barbara had to dash back to work after an hour, so she kissed as many orphans as she could in ten minutes, and then left off. Just as she was going toward her car, a small doleful voice called out— "Oh, Miss La Marr! You left off at—"

"Did I, darling?" Miss La Marr laughed. "Well," she cried, as she turned back and gathered the little one to her, "here's a big kiss for you! Don't forget we have a date for a week from Sunday!" she added.

"I'll say I won't!" the little one chimed back at her.

Farmer Killed When Tractor Turns Turtle

(EXCLUSIVE DISPATCH)
REDLANDS, March 30.—Ray Carter, vineyardist of the Yucaipa Valley, was instantly killed under his tractor last night just before dusk when he attempted to drive it up a steep grade. The tractor turned over backward and he was pinned underneath it and died almost instantly.

Carter had not driven the tractor much. He worked late, and then to avoid tearing up the road, complaints having been made of this, he drove the tractor over a ditch and up a steep hill. He evidently was unprepared for what happened. It took twenty men to lift the heavy tractor from his body.

The body was brought to this city and this morning an inquest was held, a verdict of death by accident being returned. He was found by F. I. Hastings, who had gone in search of him at the request of Mrs. Carter, who became frightened when her husband did not come home.

He leaves a widow, two step-children, a mother and a brother.

BOYS HER SLAVES

Barbara had all the small boys as her slaves in the game of "I Choose You." Barbara could have her pick of any youngster from 3 to 12 years of age.

There was great interest evidenced among the orphans in Barbara's orphan, which was perhaps one of the reasons for his un-

Sea Grass ROCKERS, CHAIRS \$6.95 up

Fund for Water Works Is Voted by Long Beach

By a "Times" Staff Correspondent
LONG BEACH, March 30.—Expenditure of \$100,000 for enlarging the city's water system was authorized by the City Council today. The work is to be undertaken at once. It will include the drilling of two wells on city water lands, the construction of more reservoirs and the laying of additional water mains to East Long Beach, North Long Beach and Belmont Shore.

The program of extensions, according to city officials, was undertaken to avoid a water shortage in the near future because of the city's rapid growth. The money for the work will come from the funds of the water department.

OIL FIGHT RESULTS IN FISTICUTS
 (BY A. P. Staff Writer)
REDONDO BEACH, March 30.—As an aftermath of the election to settle the question of oil within the city of Redondo Beach, a fistfight broke out between two oil company men, James J. McLaughlin and Thomas J. McLaughlin, who were both in the city at the time of the election. The fight was over the question of whether or not the city should have oil.
